# About me

## A quick biography

I was born in Genova the 19th of January, 1989. Since my early years my father gave me a huge confidence in what I created, drawing and growing together. When I had to decide which studies to do, it was easy for me to go for Fine Arts. I graduated at Accademia Ligustica and in the past years I have worked in different fields, such as illustration, children illustration and graphic design.

I decided to put myself on a constant rollercoaster, always searching for new styles and improvements. I am focusing on digital drawing and illustrations, and here you can have a sneak peek of my path.

*per ricordarti sempre che  
dietro ad ogni laurea  
c'è almeno un  
lavoro di merda.*

*portala sempre con te per deprimerti

## **ART AS MEANINGFUL THROUGH**

Art can even be pain, can be a lesson,  
can be full of blood.

## **ART AS MEANINGFUL LAUGH**

We can find the worst lessons in the  
lightest images.
